

# My diary

ERASMUS cultural exchange

During the week of this ERASMUS we visited many monuments and many historical artefacts and did many interesting activities so we learned to know the different realities.

## -sunday/monday, Tarquinia:

On Sunday the host arrived in Tarquinia and initially I felt a little uncomfortable because my host and I were shy so we didn't talk much. But during the day we talked much more and we became familiar. On Monday morning we visited the part medieval of Tarquinia.

## -tuesday, Rome trip:

In Rome we visited just the most famous monuments of this city like Colosseum, Fontana di Trevi, Castel Sant'Angelo... ecc.

We travelled by train to get in Rome but to move in the city on foot.

When we went to home we felt very tired despite the beautiful day.

### **-Wednesday, Tarquinia trip:**

On this day beyond participated in different activities on the schoolyard, we went for a trip to the natural reserve by the sea where we saw a lot of different typical species; and at the ancient Tarquinia, like the Etruscan tombs, so we visited the Necropolis and Museum, where they show the remains of the ancient Etruscan city.

### **-Thursday, Tarquinia:**

On this day we did the podcast with our host and the most fun part of the day was when in the evening we went out to dinner with all the participants. During the evening we danced a lot and we ate very good things. So we had a lot of fun.

**-Friday, tarquinia:**

In this last day we did many sports games and we participated in the Flashmob. But the most fun part was when we all went to the beach and we played volleyball together. After that we all went to our own house and we ate pizza with fries. Around 3.00 am we woke up to bring to the barrier our host, where the bus was waiting for them. We said goodbye and we got very excited.
